To Whom It May Concern:

Ms September Brod is one of the most prolific and dynamic persons to which I have had the pleasure of working with these past few years.

Since I started working for the Pueblo of Laguna, Native American Lands Program, we have had nothing but a great working relationship between Ms Brod and the Pueblo. She is by far the most intelligent, efficient, dedicated and tenacious persons I know. Her direction and job knowledge is only an extension of herself and treats all personnel involved with great respect. Her motivation, ambition and enthusiasm only reflect her demeanor as a true "Team Player".

In the past 4 years since working with Ms Brod, we have successfully completed 4 projects on the Pueblo of Laguna with Outstanding results, emulating not only her knowledge to continuously put forth great projects, but ensure that each tribe that she is affiliated with, succeeds to it's utmost capability. Her dedication and perseverance is above and beyond what this program manager would expect and she puts her best foot forward to have a great working relationship, not only with the Tribe, but all entities involved. She has definitely impressed the Pueblo of Laguna with her flawless support and exuberant attitude to ensure that we only get the best out of her and the Federal Government.

Above and beyond, you will only get the superior qualities, polished attitude and the meticulous work ethic. With Ms Brod, you get nothing short of outstanding, and it is without reservation that I give this recommendation with confidence because I know she will get the job done right without fail.

Respectfully,

Vernon C. Valdez
Pueblo of Laguna, NALEMP Manager
